KEMP'S CATALOGUE

Wonder Exhibition

Dablias—Gladiolus—Iris

New Types and Colors

KEMP'S GARDENS, *Breeders-Growers*

BOX 181, LITTLE SILVER, N. J.

Telephone: Red Bank 2876

TO OUR FLOWER LOVING FRIENDS AND PATRONS

GREETING:

It gives us much pleasure to hand you our 1935 catalog of Dahlias, Gladiolus and Japanese Irises, and to extend to all our appreciative thanks for your generous patronage in the years that have passed.

Dahlias, Gladiolus and Japanese Irises have been our hobby and pleasure for many years, and our breeding work with these wonder-flowers has always been the most interesting part of our long years of labor in the horticultural world. We have originated many varieties of high class Dahlias, Gladiolus and Japanese Irises, and we are much gratified to know many of our originations and introductions have found their way into the best gardens in almost every section of the world where they can be grown.

If you have never grown Dahlias, Gladiolus, Japanese Irises, try them this year. They are not difficult to grow, and will thrive in soil that will grow a good crop of corn or potatoes. If you have no room for the large flowered, tall growing Dahlias, try a few Pom Poms and miniatures. They are dwarf and require but little room, and you will be more than delighted with the marvellously beautiful colored blooms they will produce in such great abundance from July until cut down by frost. If you have a corner where a few clumps of Japanese Irises can be planted, they will lighten up your garden and supply marvellously beautiful flowers for cutting the latter part of June or early July, just at a time when they will be most appreciated. No garden should be without one or more plantings of Gladiolus. They will brighten the corners and vacant spots in the hardy border, and provide the very choicest cut blooms for the home.

Our originations and introductions were again big prize winners the past season, both in the U. S. and many foreign countries, and to our long list of winnings in past years, they swelled the list by the addition of 10 medal, trophy and cash prizes. They are winners everywhere.

We have the best stock of Dahlias, Gladiolus and Japanese Irises we have grown in years, and are prepared to supply our customers with as good stock as can be had from anywhere, and all who place their orders with us can rest assured they will be filled with the very best stock it is possible to produce.

Please do not lay this catalog aside until you have examined every page. You are almost sure to find something listed therein that you will wish to have in your garden this year, and at prices as reasonable as is consistent with the production of high quality stock.

Bespeaking a liberal share of your 1935 business, for which we are pleased to thank you in advance, we remain,

Yours for better flowers,

KEMP'S GARDENS, Breeders and Growers,

Little Silver, New Jersey.

December, 1934.

When you think of better Dahlias, Gladiolus and Japanese Irises, think of KEMP, we have them.

TERMS OF SALE—PLEASE READ CAREFULLY

The following offers are made subject to prior sale, and on the following conditions.

Our quotations are for strictly first-class, true to name goods, and we guarantee its quality to please you. Any stock that should prove otherwise, we will cheerfully replace it free of charge. Beyond that our responsibility ceases. There always has, and always will be a limited number of failures in every line of gardening endeavor, most of which are usually due to causes beyond our control, such as soil conditions, too deep or too shallow planting, lack of proper cultivation, unfavorable weather, etc., which renders it impossible for us to guarantee your success; but we do guarantee to fill your orders with good healthy stock, and to deliver them to you in growing condition. With each order we send printed cultural directions for your guidance, which if followed carefully should be very helpful in guiding you to success.

CANADIAN REGULATIONS—To import Dahlias and Gladiolus into Canada, a special permit must be obtained from the Secretary of the Destructive Insect and Pest Act Advisory Board, Department of Agriculture, Ottawa, Ont. We must know the number of your permit so it can be mentioned upon the parcels and invoices, and require the white mailing tags, issued by the Board to affix to parcels, one for each parcel.

If you should have just cause for complaint, do not hesitate to let us hear from you, and we will make every reasonable effort to adjust the complaint to your satisfaction.

TERMS—Cash with order, or satisfactory bank reference bearing the endorsement of your banker.

SPECIAL REQUEST—If you should receive an extra copy of this catalog kindly hand it to a friend or neighbor who is interested in growing flowers. Thank you.

We ship plants to all parts of the United States and Canada, and guarantee their safe arrival. Our long experience in growing and shipping Dahlia plants under the most approved methods, insures them against damage in transit.

They who are constantly shopping around wanting the best of every bargain, usually get the worst end of it.

KEMP'S WONDER DAHLIAS

Reports coming to us from all parts of the United States, Canada and overseas countries all tell the same story of sweepstakes and class prize winnings. Sensational successes everywhere.

This year we are privileged to offer you other varieties that we feel sure will take their place in the ranks of the great Dahlias that have been the greatest prize winners throughout the country the past few years.

For many years, KEMP'S WONDER DAHLIAS have been consistent prize winners wherever exhibited in competition, and better still, they are wonderful doers, which prove the real worth of a Dahlia. You never go wrong when you buy Kemp grown Dahlias.

Full and comprehensive instructions HOW TO GROW GOOD DAHLIAS sent free with each order, when so requested. To all others a copy will be sent for 5 cents in stamps to defray cost of printing and postage.

NEW WONDER DAHLIAS FOR 1935

Abbreviations: F.D.—Formal Decorative; I.D.—Informal Decorative; Str.C—Straight Cactus; I.C.—Incurved Cactus; S.C.—Semi-Cactus; P.—Paeony.
Divisions, mean one or more roots (tubers) to each.

Daddy Kemp

DADDY KEMP—I. D. (No. 3-32). This is every inch a man's flower, and one of the most spectacular dahlias introduced in recent years. In color it is a rich purplish red, the flowers attain to an immense size, often 14 inches and over in diameter and 5 to 7 inches in depth. The plant is a rampant grower, many branched and tremendously prolific of bloom. It should be grown to not over four stalks to the plant to insure good stems, which are long, slender and the great size and weight of the blooms may cause them to be somewhat pendulous in unfavorable situations. In Canada, Rhode Island and Northern New Jersey, where it was tested out the past season, the stems were faultless. Whatever fault it may have in stem, is more than offset by its great size and spectacular beauty. Stock is limited and reservations should be made early. On Hart's 1934 Honor Roll.

Good strong divisions, each \$10.00; Plants, each \$5.00

New Wonder Dahlias for 1935 (Continued)

Kemp's Black Knight

KEMP'S BLACK KNIGHT—I. D. (No. 7-W). We are unable to find a color in Ridgeway's color chart that matches the color of this giant dahlia. The nearest we can come to it is dark velvety maroon, almost black. The flowers are of great size, often up to 14 inches in diameter, and are held high above the foliage on thick stiff stems. In the early part of the season, most of the blooms face upward, later most of them face front. Plant is a very strong grower, attaining to a height of 6 to 7 feet, wide spreading and prolific of bloom, from early season until frost. A spectacular dahlia of unusual interest and attracted as much attention in our garden the past season as any dahlia among the dozens we had on trial.

Strong divisions, each \$7.50; Plants, each \$3.75

LADY GAY—(No. I-33). This beautiful informal decorative dahlia is a real Lady's Flower. Its delicate coloring, combined with the artistic finish of flower, gives it refined feminine touch rarely found in any flower. It was much admired by the many lady visitors to our gardens the past season. The colors are a combination of bright lemon, yellow, tipped begonia rose, the rear petals later changing to almost solid begonia rose as the flower becomes fully blown. Flower is about 8 inches in diameter, and 6-7 inches in depth, and are held high above the foliage of the tall stately plant on long stiff stems. Plant is a very strong grower, many branched and an abundant bloomer from early season until killing frost.

Divisions, each \$7.50; Plants, each \$3.75

New Wonder Dahlias for 1935 (Continued)

EDITH A. LEHMAN—I. D. (No. 11-33). This beautiful dahlia was named for the wife of the Governor of New York, at the fall flower show held in the 14th Regiment Armory, September 26th. Her consent had been granted previous to its christening. The color of this beautiful dahlia is a brilliant old rose, with tawny sheen overlying the middle rear half of the petals which very materially enhances the beauty of the flower. Flowers attain to a width of 12 inches and over, having good depth, and are held high above the foliage on long stiff stems. The tall stately plant has great vigor, and is an early and generous producer of large blooms from early season, until frost. On Hart's 1934 Honor Holl.

Plants only, \$7.50 each

EDITH A. LEHMAN

EDITH MENCKE

EDITH MENCKE—I. D. (No. 29-31).

This large, attractive dahlia is orange buff in color, with slight sheen of pink on the older petals. Blooms are 10 inches and over in diameter, and 6-7 inches in depth, and are produced very freely on plants of strong growth. Stems are long, stiff and hold the flowers high above the glossy foliage. A fine dahlia we can unreservedly recommend to our friends and customers, as it is well worth growing in any one's garden. A splendid exhibition variety that is hard to beat. It will easily score 85, so says one of the expert eastern growers who had it on trial the past season. You will make no mistake in adding this fine dahlia to your list.

Divisions each, \$10.00; Plants, each \$5.00

NEW INTRODUCTIONS FROM OTHER SOURCES

Lord of Autumn

LORD OF AUTUMN—I. D. Almy Kemp, 1934. We again take much pleasure in calling your attention to this great yellow dahlia, which in our opinion is the most outstanding and sensational dahlia ever introduced, regardless of color. Its rich golden yellow flowers do not bleach nor burn, even in the most intense sun heat. The flowers, some facing upward, others facing to the side are of immense size, and can be grown to 13 inches and over in width by 7 to 9 inches in depth, and are held high above the luxuriant foliage on stiff stems. Plant grows to four to five feet in height, wide spreading and many branched, each branch being crowned with a giant bloom. It is no uncommon thing to see two to five giant blooms on a plant at a time. Continuous bloomer from mid-season until cut down by frost. This great dahlia was awarded more first prizes in the classes for the largest and most perfect bloom than any other dahlia shown in the 1934 eastern shows. A good specimen flower of it is simply unbeatable. You cannot afford to overlook this dahlia if you have hopes of winning in the specimen classes next season. We have a small supply of roots to offer our customers, and it will be well for you to place your order early.

Divisions, each \$10.00; Plants, each \$5.00

New Introductions From Other Sources (Continued)

DOKOUPIL'S TRIUMPH

DOKOUPIL'S TRIUMPH—I. D. This in our opinion is the best decorative dahlia that Europe has sent us. The color is light straw yellow shaded light lavender pink in the center of the flower. In the early part of the season a few blooms will come with hard centers, but those that follow are the finest of exhibition blooms that are held well out of the foliage on stems 12-18 inches long. Plant grows to a height of 4 feet and over, is wide spreading, with many branches, each crowned with a fine bloom 12 inches and over in diameter by 5 to 8 inches in depth. The plant is the most beautiful we have ever grown. Its bright glossy foliage is a picture in itself.

Divisions each, \$5.00;
Plants each, \$2.50

BARBRA HAWKS—I. D. (No. 22-B). This distinctive dahlia is light phlox purple in color, flowers up to 10 inches and over in diameter, and are held well above the luxuriant foliage on stiff stems. The plant is an unusually robust grower, attaining to a height of 7 feet, many branched and wide spreading, is very prolific of large blooms, that can be cut with stems up to three feet or longer. Good keeper when cut. All in all, it is a fine dahlia with much merit to recommend it.

Divisions each, \$5.00; Plants each, \$2.50

CROYDON GLORY—F. D. (No. 20-B). Formation similar to Monmouth Queen, slightly deeper hue of yellow, and blooms somewhat larger. The color is a buff yellow with gradation of light sulphur and creamy yellow effect as the flower ages. Flowers are full centered, 10-12 inches in diameter, and 4-5 inches in depth, and are held high above the foliage on long stiff stems. Height of plant, 5-6 feet. Liberal producer of large exhibition blooms from early to late season. Fine exhibition variety.

Plants each, \$2.50

CROYDON SUPREME—F. D. The color of this splendid dahlia is orange buff, shading to lighter hue at tips of petals. Reverse rose pink, reflecting through to surface of the flower, giving the flower the unique appearance of pink shading, fused with the orange buff ground color. Flowers average 9 inches and over in diameter, and four to five inches in depth, and are held well above the foliage on long stiff stems. Plant 4½ feet, wide spreading and a very healthy, sturdy grower. Early bloomer. Root stock very limited.

Divisions each, \$5.00; Plants each, \$2.50

GEORGE L. FARNUM—I. Cac. (Stredwick). A tall growing cactus of unusual quality. The blooms are of true incurved type, are crimson-scarlet in color, and are produced in the greatest profusion throughout the season, on long stiff stems. Height 6 feet. Root stock limited.

Divisions each, \$2.00; Plants each, \$1.50

HARMONY—F. D. (No. 34-W). This tri-colored dahlia is not only very beautiful, but quite unique in its color tones, they being lemon yellow, with border of light geranium pink on each edge of the petals, just to the rear of the white tips. Flower is not large, averaging about 6 inches in diameter, but what it lacks in size is certainly more than offset by its beauty. Plant is a tall grower, many branched and a very prolific bloomer.

Divisions each, \$3.50; Plants each, \$1.75

New Introductions From Other Sources (Continued)

HIBALL—(No. 49). Color of this fine new ball dahlia is old rose. Flowers are about 4 inches in diameter, of equal depth, and are held high above the foliage on long stiff stems. Plant very vigorous and tall, reaching a height of 7-8 feet, many branched and an early and very profuse bloomer. One of the best ball dahlias introduced in recent years.

Divisions each, \$3.00; Plants each, \$1.50

JOAN OF ARC—I. D. (No. 917-30). This fine white dahlia originated with us in 1930, and has been tested in gardens of our friends from Canada to as far south as Tennessee, and the reports from the various sections of the country have been so encouraging we have decided to introduce it. The plant is of rather dwarf habit, with many side branches, and is exceedingly prolific of bloom. Fine for garden and house decoration and for exhibition, as the blooms can be grown to 11 inches and over in size, and it is a remarkably good keeper when cut. Many of the flowers are distinctly marked with an Ox blood blotch or stripe on one or more of the petals, hence the name Joan of Arc.

Roots each, \$3.00; Plants each, \$1.50

LADY MOYRA PONSONBY—I. D. (Lee). Very large piric yellow blooms on as fine growing plants as could be wished for in a dahlia. Flowers are large to very large, and are held high above the foliage on long stiff stems. Some growers rate this fine yellow second only to the Lord of Autumn. If you do not have this fine exhibition variety, you should add it to your collection by all means. You will like the way it grows, and its lavish productiveness of large exhibition blooms.

Divisions each, \$3.00; Plants each, \$1.50

PAUL PFITZER—This is the most beautiful of all the cactus dahlias in commerce. The color combination being primrose and shell pink. In type it is a semi or straight cactus, flowers average about 5 inches in diameter, are held upward on long perfect stems, and are produced in great profusion on the many branched plant, of about 5 feet in height. A very fine cactus you cannot go wrong on buying.

Divisions each, \$4.00; Plants each, \$2.00

THE DUCHESS—We have had this beautiful bi-colored dahlia on trial for the past two years, and we unhesitatingly recommend it as being the best white tipped, yellow dahlia we have ever grown. The blooms are produced in profusion on long stiff stems that holds them high above the foliage. Maximum size of bloom about 9 inches across and 5 inches in depth. Plant is a tall vigorous grower and an early bloomer. Stock quite limited.

Plants each, \$1.50

VICTORIA—I. Cac. (Stredwick). Perfectly incurved yellow cactus of great merit. Plant is low growing, many branched and very prolific of fine exhibition blooms. One of the best liked cactus resembling a chrysanthemum. Plant 2½ to 3 feet. Root stock quite limited.

Divisions each, \$2.00; Plants each, \$1.00.

WOOD'S LAVENDER—Color is white flushed lavender. The flowers are large and produced on stiff long stems. It has a splendid habit and robust in growth. Winner of the Court of Honor, Trenton, 1931; Asbury Park, 1931; Red Bank, 1932. For sheer beauty, this is one of the most beautiful of all varieties.

Plants only, \$5.00 each

1934 INTRODUCTIONS

H. R. S.—HUBERT ROY STOVEL—(Seal). A great informal decorative of true yellow. On Hart's honor roll for 1933, where it was sent for trial. The golden yellow blooms are huge without forcing and are held high above the foliage on long, stiff stems. Mrs. Seal considers H. R. S. the best of her many originations and introductions.

Plants, only \$2.50 each

LOIS MARION—Inc. Cac. (Ruschmohr). This is a typical incurved cactus, and different in color from any we have seen, it being a light yellow, edged shrimp pink. The flowers are large for a dahlia of the incurved type, and are of very symmetrical formation. Stems are long and stiff, holding the flowers high out of the foliage of a tall robust growing plant. Very free bloomer, when it gets under way which is a little late in the season. For this reason it should be planted as early as weather will permit and not be pinched back.

Divisions, each \$5.00. Plants, each \$2.50

1934 Introductions (Continued)

MONMOUTH QUEEN—F. D. (No. 10-32). This fine light yellow made good all over the country the past season, and those who had it in their collection, report it as being greatly admired by the many visitors at their gardens. The color effect of this dahlia is most pleasing, it being a pearly yellow in the center of the flower, with gradation of light primrose to creamy yellow rear petals. Flowers are full centered and are held facing front, and are 10-12 inches in width by 4-5 inches in depth. Stems are long and stiff, holding the flowers high out of the foliage. Plant a robust grower, and good root maker. Not subject to insect attacks.

Divisions each, \$6.00; Plants each, \$3.00

MONMOUTH RADIANCE—I. D. (X 100). This wonderfully beautiful dahlia was introduced by us last year. It was the winner of the American Home sweepstakes medal at the Camden, N. J., show, in the class for the best new variety not then in commerce. In this beautiful flower is presented a color combination of light coral pink, with primrose suffusion on rear half of petals, giving the flower a brilliant coral pink effect, with deep primrose background, that radiates throughout the entire flower. It is beautiful from whatever angle the flower is viewed. Flowers 11 inches and over in width, by a depth of 5-6 inches, are borne on a very tall stately plant 6-7 feet in height, with stems that can be cut up to 4 feet in length. Owing to the heavy demand for it last season, we had only a few plants left for our own planting, and are unable to offer it in roots this year. It is naturally a late bloomer, and should be planted early, and be allowed to grow without pinching back.

Plants only, \$3.75 each

MONMOUTH SUNBURST—F. D. (28-30). The colors of this beautiful dahlia are brilliant lemon center with salmon orange background, producing a realistic sunburst effect. The flowers face both upward and front on long stiff stems well above the foliage, and reach a maximum size of about 9 inches wide and 7 inches in depth. The plant attains to a height of 4½ to 5 feet, is many branched, and exceedingly prolific of blooms from early to late season. AN HONOR ROLL DAHLIA of much merit. A prime favorite with the many visitors to our gardens the past three years.

Strong divisions, each \$5.00. Plants, each \$2.50

ORANGE BRILLIANT—I. D. (No. 19-34). A golden orange of exceptional brilliancy. The flower can be easily grown to 11 inches in diameter, and the depth is always just right to properly balance the blooms, whether grown to large exhibition size or intermediate size for house decoration or for florists' use. The plant attains to a height of 6 feet and over, and has the same habit as Jersey's Beauty, flower stems are long, stiff, and hold the flower high out of the foliage. Blooms can be cut with stems up to 4 feet long. A remarkably good keeper when cut.

Divisions each, \$7.50;

Plants each, \$3.75

ORIENTAL GLORY—I. D. (Swartz). A mid-western dahlia that does remarkably well in that section of the country. At a distance the color seems to be brilliant, dazzling balls of deep orange. Closer examination reveals the color to be Cadmium Orange overlaid with glowing scarlet sheen, center and reverse heavily shaded scarlet. Flowers are 8-10 inches in diameter, and are of sufficient depth to properly balance the bloom. Plant a hardy rugged grower, with many branches, and its numerous flowers are held well out of the foliage on stiff stems.

Divisions each, \$5.00. Plants, each \$2.50

ORINGO—I. D. (32-19). This is one of the most unique and distinctive dahlias in color and formation we have seen in many years. The color effect is a gradation of golden orange to rich salmon orange from front to rear petals of flower, and the petals are curled and twisted in a manner to bring out its brilliant colors much more effective than is usually noticeable in a flat petaled flower. The flowers attain to 10 to 12 inches across by 5 to 6 inches in depth, and are held on stiff stems well above the foliage. Plant grows to medium height, well branched and a prolific bloomer. A splendid exhibition variety. Stock very limited.

Strong divisions, each \$5.00. Plants each \$2.50

1934 Introductions (Continued)

ROSETTA—I. D. (15-32). The predominating color effect of this fine dahlia is old rose shading to yellow radiation at base of petals, which greatly enhances its beauty. The flowers are 10 inches and over in width, and 6 to 7 inches in depth, and are held well above the dark leathery foliage, on stiff stems. Plant is of medium height, wide spreading and unusually prolific of large beautiful bloom, from early season until killed down by frost. The thick, tough foliage is very resistant to injurious insects. A good dahlia for exhibition, and for garden and house decoration.

Strong divisions, each \$5.00. Plants each \$2.50

THE FIREMAN—I. D. (Success 1934). This sensational red dahlia carried off the American Home Achievement Medal as the best undisseminated variety at Boston, and in the New York Botanical Gardens it was also decidedly outstanding. The color is a flashy cardinal red with gold flushes and golden tips. Flowers are large, and are held high above the foliage on long stiff stems. Plant is a strong grower, prolific bloomer, and good tuber maker from green plants.

Plants, each \$2.50

1932 and 1933 INTRODUCTIONS

AMELIA EARHART—S. C. (Cordes-Eastman, 1933). This great dahlia becomes more popular each year because of its great prize winning achievements. It has been a great winner from coast to coast, and will continue to be one of the leaders for some years to come. The type is of semi-cactus form, and the color is a most charming apricot-buff. Flowers large, and are borne on long stiff stems on a medium tall plant. Very prolific of bloom.

Roots, each \$5.00. Plants, each \$2.50

CHAUTAUQUA SUNSET—I. D. (Wallace). We tested out this beautiful dahlia in our trial garden, 1932 and 1933, and of the numerous varieties in the Garden, none was more generally admired than this fine variety. No more exquisitely beautiful dahlia was ever originated. The coloring is a magnificent combination of sunset colors,—gold, orange, and peach red. Flowers are large full-centered and are held on strong stems, well above the dark green foliage. Plant medium high and wide spreading. A magnificent dahlia for garden and house decoration and a most excellent exhibition variety. Root stock quite limited.

Divisions, each \$5.00. Plants, each \$2.50, 3 for \$7.00

CROYDON—I. D. We introduced this fine white, spring of 1932, but were compelled to omit it from our 1933 catalog on account of scarcity of stock. We now have a small stock of good roots to offer and at a price you can afford to pay. The flowers are pure white, and grow to 10 inches and over across, and the flowers are borne on very sturdy stems facing. If the center bud is taken out and the best one of the side buds be allowed to develop, the flower will be held high above the foliage. The plant is a tall sturdy grower, well branched and quite prolific of large exhibition blooms.

Divisions, each \$3.00. Plants, each \$1.50, 3 for \$4.00

EAGLE ROCK SUPERBA—Dec. (Broomall-Success, 1933). Mr. Broomall considers this to be one of his very best originations. The color is difficult to define as there is no color in the color chart that matches it; the nearest being a light Amaranth Pink. The originator considers it a better dahlia than Eagle Rock Fantasy. It is about the same size as Fantasy, and habits of bush about the same. In fact it is a duplicate of Fantasy in every particular excepting color. This fine dahlia undoubtedly has a great future.

Divisions, each \$5.00. Plants, each \$2.50

JERSEY'S MAJESTIC—I. D. (Waite). With good cultivation and liberal feeding this dahlia will grow to very large size. The color is quite distinct from all other dahlias, as it is a pleasing blend of salmon, old gold and rose. The almost bronze color of the foliage, adds to the beauty of the flower. Plant is of very robust growth.

Divisions, each \$3.00. Plants, only \$1.50 each

LA FIESTA—I. D. (Cordes-Eastman). Here is another dahlia from the same source as the Amelia Earhart, that was one of the season's outstanding winners and probably the most distinctive of the new dahlias in actual form. Won the Court of Honor prize at Camden, N. J., also best Informal Decorative Seeding at New York, Pennsylvania Horticultural Society Show, and at Richmond, Va. The color is Butter Yellow, penciled red. A mass of lacy petals that curl and twist making the flower look like a great Chrysanthemum. Flowers are quite large, frequently attaining to 11 inches and over in diameter, by 8 inches in depth. Plant has excellent habit of growth.

Roots, \$1.00 each. Plants, only 75 cents

1932 and 1933 Introductions (Continued)

MONMOUTH PENNANT—I. D. This beautiful bicolored dahlia attracted much attention in our gardens and the show room the past season. It is the most impressive bicolor among the new comers, and one of those flashy color combinations that show all the way across the show room and the garden. The colors are orange scarlet back ground, tipped white, and are defined sharply and evenly on each petal. Under good culture the flowers will attain to 10-11 inches across and 4-5 inches in depth, and are held well above the foliage on good stems. Plant is medium to tall grower, well branched, and a profuse bloomer. Foliage tough, and quite resistant to insect attacks. A beautiful dahlia that you will like very much.

Roots, each \$3.00. Plants, each \$1.50

MURPHY'S MASTERPIECE—I. D. (Murphy, 1932). This giant red dahlia could have been very appropriately named **SEEK NO FURTHER**, for when it comes to winning in the largest bloom class, it is the recognized leader. It is quite safe to say, it was the largest winner in this class of any dahlia exhibited in the 1933 eastern show. If you expect to carry off the blue ribbon in the largest bloom class you have simply got to have Murphy's Masterpiece to do the trick. The flowers can be grown up to 14 inches and over in size, and it grows large without much encouragement. The color is dark red, shading toward garnet, and it will withstand much sun heat without fading or burning. The plant is a strong grower, and is a generous producer of large, perfectly gorgeous exhibition blooms, that are held high above the top leaves on rigid stems that never go saxophone shape. The greatest red dahlia to date, and the greatest prize winner of all the dahlias of its color.

Plants, each \$2.00

PALO ALTO—S. C. (Ballay-Success, 1933). The color of this fine dahlia is bright salmon with deep primrose shading at the center. The flowers full centered, of good substance, and range in size up to 12 inches across by 6 inches in depth, and are held high above the foliage on straight, stiff stems. Plants are strong healthy growers and good all round doers. An honor roll dahlia of great merit.

Roots, each \$4.50. Plants, each \$2.25

PURPLE WONDER—I. D. The predominating color of this fine dahlia is Pansy Purple, with Rose hued lavender reverse. A seedling of Fort Monmouth, but a taller and somewhat more robust grower. The blooms range up to 11 inches across and 6 inches in depth. Are full centered, and are held facing well above the dark foliage on stiff stems. Height of plant, 6 to 8 feet, with long slender branches, making it possible to cut the blooms with extra long stems. Foliage very thick, dark colored, and so tough in texture, insects make but little headway in damaging it. Root stock limited.

Plants, each \$2.50

SATAN—S. C. or I. D. (Ballay-Success). This is one of the largest and most spectacular dahlias of the type we have ever grown. It is no uncommon thing to see blooms up to 13 inches in width by 6 inches in depth. The color is scarlet, with yellow on reverse of petals, showing at the center as the petals unfold. The giant blooms are held high above the foliage on long thick stems, which in turn are supported by a very vigorous, sturdy growing bush, 6 feet and over high. It probably won more first prizes in the single bloom classes in the eastern shows the past season than any other dahlia.

Roots, each \$3.75. Plants, each \$1.75

TESTED EXHIBITION DAHLIAS OF EXCEPTIONAL MERIT

Dahlia orders for less than \$1.00 not acceptable.

CROWN O'GOLD—F. D. (1932). Very large, deep lemon, chrome color, the richest colored yellow dahlia we have ever grown. Fine garden and exhibition variety.

Roots, each \$1.50. Plants, each \$0.75, 3 for \$2.00

IMPROVED COMMODORE—I. D. Seedling of The Commodore. Flowers same size, type and color, but hold its petals better, and plant is a somewhat taller grower. A better all round yellow dahlia than The Commodore.

Divisions, each \$2.00. Plants, each \$1.00, 3 for \$2.50

JIM MOORE—I. D. A most worthy dahlia you will be pleased to have in your garden. Petals are long and regular, and the color is most pleasing, being primrose yellow shaded gold suffused with salmon. Fine garden and exhibition variety.

Divisions, each \$1.00, 3 for \$2.75

THE COMMODORE—I. D. (1932). Very large loose petaled lemon yellow, overlaid with golden sheen. One of the largest exhibition varieties.

Roots, each \$1.50. Plants, each \$0.75, 3 for \$2.00

WHITE DAHLIAS

ADDA PATTERSON—S. C. (Kemp). Largest and best white semi-cactus introduced to date. The pure white flowers average 9-10 inches across, and are held high above the foliage on long stiff stems. Plant tall, and healthy grower.

Divisions, each 75 cents; 3 for \$2.00

ANDREA ERICSON—I. D. (F&M). A 9 to 12 inch flower of pure white color. Fine garden and exhibition variety. Plants of medium height and excellent habit of growth. Stems, long and stiff, holding the flowers high above the dark green foliage.

Divisions, each \$1.50. Plants, each 75 cents; 3 for \$2.00

IDA PERKINS—F. D. (Perkins). The best white Informal Decorative of the earlier introductions. A good garden and exhibition white dahlia, with most excellent habits.

Divisions, each 75 cents; 3 for \$2.00

WHITE KNIGHT—F. D. (1932). This is another fine white of large exhibition size, averaging 9-10 inches across and 5½ inches in depth. Plant, medium tall, wide spreading and very prolific of large blooms, which are held upright, on cane like stems. A great prize winner. You will like this dahlia.

Divisions, each \$2.50. Plants, each \$1.25; 3 for \$3.25

WHITE WONDER—I. D. (Black-Kemp). We introduced this wonderful white, Spring of 1933, and it has steadily forged its way to the front throughout the country. Reports coming to us from growers in all parts of the country confirm our claims made for it in 1933 and since. We believed then, and still believe it to be the greatest informal decorative white ever introduced. At the big mid-west dahlia show held in Grand Rapids, Mich., the past season, a bloom of White Wonder received the award for the largest and most perfect bloom in the show. In a letter received from an advanced amateur in Delaware, written November 21st, he stated he had blooms of White Wonder 16 inches in diameter the past season, and from Columbia, S. C. an exhibitor won over everything in the show with White Wonder, and we might go on with coverage of the entire country with similar reports of the action of this wonderful white. This great white dahlia is now available at a very moderate price, and should be included in your order for 1935, if you do not already have it.

Large divisions, each \$2.00. Plants, each \$1.00

PINK AND LAVENDER SHADES

DOROTHY STONE—I. D. (F&M, 1929). This exquisite rose pink dahlia has been a close rival for Kathleen Norris from the very beginning, and is still racing it for first honors. Many like it better than Kathleen Norris. The plant is a vigorous grower, and the large exhibition blooms are produced quite freely on long stiff stems, well above the foliage.

Divisions, each \$1.00; 3 for \$2.50

EAGLE ROCK FANTASY—I. D. (Broomall-Success). This fine Orchid pink dahlia has made good, and is today about the greatest dahlia of its color in commerce. The flowers grow up 12 inches and over in size, and are held high above the foliage on long stiff stems. A marvelously beautiful exhibition dahlia that is hard to beat in the show room.

Plants, each \$1.00; 3 for \$2.50

ELSIE SWOBODA—F. D. (Kemp, 1932). Color, Japan Rose Pink, with deep chrome yellow illumination radiating from the center of the flower. 10 inch blooms, with cane like stems that hold the flowers well above the foliage. Plant 4½ feet, wide spreading and very prolific of bloom.

Divisions, each \$1.00. Plants, each 75 cents; 3 for \$2.00

GLORY OF MONMOUTH—F. D. (Kemp). This is one of our earlier introductions, and we still grow it because of its great beauty. The colors are eosine pink, shading to strawberry pink at center of petals. Base of petals light orange. A new color combination of great beauty. Plant is of semi dwarf habit, wide spreading, and very sturdy. Its beautiful flowers are produced in profusion, and are from 6-8 inches in diameter by four to five inches in depth. Stems long and very stiff.

Roots only, 50 cents each. Dozen \$5.00

IMPERIAL PINK—I. D. (Hall, 1930). A spectacular informal decorative pink which has lived up to the best traditions of dahlia lore. The large flowers are a beautiful true pink, with primrose shading toward the rose pink center. Flowers are very large and are held high above the foliage on long stiff stems. Plant grows to a height of 6 feet.

Plants, each \$1.00; 3 for \$2.50

Pink and Lavender Shades (Continued)

JOSEPHINE—G. S. C. An exceptionally fine dahlia for exhibition and florists' use. The color is an exquisite shade of bright pink, with very faint light yellow shading at base of petals. Flowers are about 10 inches in diameter when grown to their maximum size. Plant is of medium height, and very prolific of bloom.

Divisions, each 75 cents; 3 for \$2.00

KEMP'S VIOLET WONDER—I. D. Although this beautiful dahlia is numbered among the older introductions no other Violet colored dahlia has come forward to displace it. It is still the best Violet in commerce. A great garden and exhibition dahlia.

Divisions, each \$1.00; 3 for \$2.50

ROSINA MEHAFFEY—F. D. (Broomall-Success). If you admire the big fellows, you will find this giant Tyrian Pink dahlia just what you are looking for. Flowers can be grown to 12 inches and over, and the stiff stems hold the flowers high above the foliage, perfectly erect. Plant is a tall sturdy grower and quite prolific of bloom.

Divisions, each \$1.50. Plants, each 75 cents; 3 for \$2.00

VON RUSSWURM—F. D. (Dixie-Kemp, 1932). Color of this fine dahlia is coral pink, shaded ochraceous buff in the center and at the base of the petals. Flowers average 9 to 10 inches in width, and are of good depth, and the long stiff stems hold the flowers high above the foliage. Plant, averages about 8 feet in height, permitting the blooms to be cut with stems up to 4 feet in length. A wonderfully fine exhibition dahlia.

Divisions, each \$2.00. Plants, each \$1.00; 3 for \$2.50

AUTUMN AND ORANGE SHADES

EAGLE ROCK WONDER—S. C. (Broomall-Success). If you are looking for tremendous size, form, habit of profuse blooming qualities and vigorous growth, you will find all of them in this variety. The color, according to Ridgeway's color chart, is Mars Orange, shading to orange-buff, with tints of coral pink and coral red, the general effect being between orange and apricot. Flowers are of enormous size, and are produced on long stiff stems, holding the flower high above the foliage.

Divisions, each \$1.00; 3 for \$2.50. Plants, each 60 cents; 3 for \$1.50

GIRL OF HILLCREST—I. D. (Scott, 1932). The color of this fine dahlia is a brilliant Mikado Orange. Flowers average 9-10 inches across, of great depth, and are borne on long stiff stems that hold them high above the foliage. Plant is a strong, vigorous grower, attaining to a height of 7 feet and over. A prize winner that you will be glad to have in your garden, and to exhibit in the shows of your community.

Divisions, each \$2.00; 3 for \$5.00. Plants, each \$1.00; 3 for \$2.50

KEMP'S MONMOUTH CHAMPION—F. D. (1930). No dahlia ever introduced has been a more consistent prize winner than Monmouth Champion. In the reports of shows over the entire country it is always mentioned as being among the winners of sweep-stake and class prize winners. Its beautiful, brilliant orange flame color and giant size of bloom, places it in first place as one of the outstanding dahlias of today.

It is a magnificent dahlia, but hard to visualize from a brief description. You will have to see it to understand why it is called great.

The plant is of medium height, wide spreading, and have yet to see its counterpart in prolific production of large, perfect exhibition blooms. Size of blooms are 9 to 13 inches across and of sufficient depth to properly balance them, whether medium to largest size.

Divisions, each \$1.00; 3 for \$2.75. Plants, each 60 cents; 3 for \$1.50

MYRA HOWARD—I. D. (1932). The color of this fine dahlia is a glowing combination of cadmium yellow and gold, with tints of salmon. The general effect being ochraceous orange. Throughout the entire flower are pataloids which give it distinction in both form and color. The 10x7 inch blooms are produced in profusion and are held high out of the bush on long stiff stems. Plant is a very thrifty grower, reaching a height of 5½ to 6 feet. Won American Home Achievement medal in 1931. Scored 87 at Storrs in 1932.

Roots, each \$2.50. Plants, each \$1.25

RED SHADES, ETC.

CINCINNATUS—F. D. (Kemp, 1932). A distinctive and novel dahlia that differs from all others. The petals are curled and crinkled like crepe paper. Flowers are quite large, and the showy colors of blended salmon and scarlet produces a stunning effect. The large blooms are held facing on long stiff stems, which in turn are supported by a very sturdy plant.

Divisions, each \$1.50; 3 for \$4.00. Plants, each \$1.00; 3 for \$2.50

Red Shades, Etc. (Continued)

EMANUELS BEAUTY—F. D. (Mendoza). A flame red dahlia of most excellent quality. Long stiff stems that hold the flowers well above the foliage. Strong sturdy growing plant, insect resisting foliage, and heat resistance. Highly recommended.

Divisions, each 75 cents; 3 for \$2.00

GREAT HARBOR—I. D. (Trossbach-Kemp, 1932). The dahlia is a bold flower as its name indicates. It grows very large, is of a rich carmine color, and are supported on long stiff stems well above the foliage. Plant is of medium height, but of very sturdy growth. A very prolific bloomer. This dahlia does particularly well in the northerly sections of this country, also in Canada.

Divisions, each \$2.00. Plants, each \$1.00; 3 for \$2.50

KARL BONOWITZ—S. C. (Dahliadel). This large brilliant carmine colored dahlia is the best of this type in this color. Sturdy flowers are supported on extra long stiff stems, high above the foliage, and the strong growing plant never fails to develop the numerous exhibition size blooms to perfection.

Divisions, each \$1.50. Plants, each 75 cents; 3 for \$2.00

KEMP'S FT. MONMOUTH—I. D. Of all the red dahlias introduced this has been the greatest prize winner to date. It is the only super dahlia of its color in existence. A rich wine red, with an undertone of bright crimson maroon. Does not burn nor fade under bright, hot sunshine. It has been grown up to 15½ inches in diameter. Plant is a tall, vigorous grower, very prolific of large exhibition blooms, supported by stiff stems high above the dark green foliage.

Divisions, each \$1.00. Plants, each 75 cents; 3 for \$2.00

PRINCE OF PERSIA—I. D. (Newsom). This fine red dahlia of California origin is a decided acquisition to the red section. The color is a dark, cardinal red, flower of real giant size both in width and depth, supported on long stiff stems high above the luxuriant dark red foliage. A prize winner of exceptional merit.

Divisions, each \$1.50; 3 for \$4.00. Plants, each 75 cents; 3 for \$2.00

VARIEGATED DAHLIAS

CHAMPOEG—F. D. (Crites-Kemp). The Dahlia Beautiful. The color of this beautiful dahlia is waxy canary yellow at center, shading to salmon pink. A color combination so beautiful and evenly distributed as though it was the masterpiece of the talented artist's brush. Flowers are supported by strong sturdy stems, that hold 9 to 10 inch blooms well above the foliage. Height of plant about 5 feet.

Divisions, each \$1.00; 3 for \$2.50. Plants, each 75 cents; 3 for \$2.00

HAZEL CHAPMAN—F. D. (Kemp, 1932). In this unique dahlia we have a color combination that is very attractive. The background is ochraceous buff, striped, speckled and splashed brilliant spectrum red. Occasionally a flower will come solid spectrum red, or half red and half variegated. The 8 inch blooms are supported on stiff stems high above the foliage. Plants medium height. Owing to the destruction of most of the plants by the big storm of last August we have no roots to offer this year.

Plants, each \$1.00; 3 for \$2.50

ROTARY—F. D. (Cottam). Medium sized scarlet red, with white tips. A beautiful dahlia for garden and house decoration, and for exhibiting in the bi-colored or fancy bloom classes. You will like this pretty dahlia.

Divisions, each \$1.00

RUDY VALLEE—S. C. (Broomall-Success). Of the many fine dahlias of recent introduction, none is more distinct nor outstanding than this one. When the flowers begin opening they show chrome yellow centers, with gradation to grenadine pink as the flower expands, finally becoming grenadine orange red when full bloom. The large, full centered blooms are held well above the foliage on long, straight stems. Plant a strong grower, attaining to a height of about 6 feet. A beautiful flower, and a great prize winner.

Divisions, each \$1.50; 3 for \$4.00. Plants, each 75 cents; 3 for \$2.00

WILLIAM H. HOGAN—I. D. (Seltsam-Success). This is one of the best variegated red and white Dahlias introduced to date. Color, garnet red with elongated white tips running down the center of the petals. Flower large, on long, stiff stems, is held high above the foliage in pleasing contrast with its dark green foliage. Strong, healthy grower and good root maker.

Divisions, each 75 cents

CACTUS DAHLIAS

ELLA MAY—(Prentice). In this cactus we have a beautiful and graceful flower. The color is rich violet carmine, shading to prune purple on outer petals. Slightly incurved, and about 5 inches in diameter. Good stiff stems, that hold the flower facing well above the foliage of a strong growing plant.

Divisions, each 50 cents; 3 for \$1.00

FARNCOT—(Fraser). The colors of this distinct dahlia are Aster purple, tipped white. Plant is a good grower, very prolific of bloom, all of which are supported by long, straight stems, well above the foliage.

Divisions, each 50 cents

GERTRUDE NORMAN—Str. Cactus (Kemp). This fine Cactus is the most satisfactory of any white of this type we have ever grown. The bush is a strong grower, attaining to a height of 7-8 feet, and is exceedingly prolific of large blooms, which are supported on long, straight stems, and are held high above the foliage. Flowers can be grown to 8 inches and over in diameter. A fine garden and exhibition dahlia.

Divisions, each \$1.00. Plants, each 75 cents

BALL DAHLIAS

CAROLYN BALL—(Bochou). A new dahlia of the true ball type of unusual merit. The color is a clear lavender-pink, flowers 4-6 inches in diameter, perfect centers, and with stems that hold the flowers erect, high above the foliage. Plant a good grower and exceedingly prolific of bloom. If well grown, it is practically unbeatable as an exhibition dahlia of this type.

Divisions, each \$1.50. Plants, each 75 cents; 3 for \$2.00

GOLD MEDAL—This is an old dahlia, but to our mind is one of the most beautiful varieties ever introduced, regardless of type. It is a perfect ball, 2½ to 3 inches in diameter, and the color combination of yellow and red is so harmoniously blended, that it would be almost impossible to produce a more exquisite flower. Plant is of rather dwarf habit, but is very prolific of bloom in the late season, and it is exceedingly fine for table and house decoration. Every one likes this exquisite flower.

Divisions, each 50 cents

POM POM DAHLIAS

JILL—Soft yellow, suffused and tipped carmine, Pom. Won first seedling class Camden, 1932. A bright colorful variety with blooms small and uniform. Bush dwarf for landscape effect altho the stems are plenty long for cutting for arrangements. Long blooming period.

Roots, each \$1.00

LITTLE NORMAN—One of the best poms we have ever grown. Its exquisite color of flesh pink, slightly tinted lavender, habit of dwarf, compact growth, floriferousness: small size of bloom, which seldom exceed one and one-fourth inches in diameter, good keeping qualities when cut, entitles it to be classed as one of the very best for exhibition and decorative purposes. We have grown a great many Poms, and seen many more, but very few varieties exceed this little Pom for real beauty and value for exhibition and general decorative purposes.

Roots, each \$1.00

AERIAL—Small, orange buff, very pretty.

BOB WHITE—(Dahliadel). This is the best white Pom we have ever grown. Flowers are small, pure milk white when full bloom, and the plant is exceedingly prolific, being literally covered with long stemmed bloom throughout the season.

BRONZE BEAUTY—A small well formed plant, producing rich golden bronze of great beauty. Free bloomer, good stems.

DARKSOME—The best dark maroon.

ELFIN—Light primrose yellow. A good grower and free bloomer.

FACINATION—Pretty orange buff pom of much beauty. The plant is a good grower, and profuse producer of exhibition and utility blooms. Good stems.

HONEY—Primrose yellow, edged red. A very pretty little Pom that will give you the utmost in satisfaction.

Pom Pom Dahlias (Continued)

JESSICA—Yellow, suffused rose red. Very free and early. Good stems.

KATHLEEN—A well formed primrose yellow. Plant is a sturdy grower, and a free bloomer. Very desirable for exhibition and table decoration.

LITTLE BELLE—Extra fine mauve pink with long, erect stems.

LITTLE DOROTHEA—Small orange and white flowers of great beauty.

LITTLE EDITH—This free growing and free blooming little Pom is a most profuse producer of small yellow blooms, slightly tipped carmine. One of the best exhibition varieties.

ROSALIA—Color old rose. Flowers are produced in the greatest profusion. Fine for exhibition and house decoration.

ROSEA—Rosy lavender, of refined beauty. Fine exhibition variety.

SAN TOY—Color pink, tinted white. Beautiful and desirable for exhibition and decoration purposes.

Strong roots of above pompoms, 35c each, \$3.00 per dozen

MINIATURE DAHLIAS

FAIRY—(Bond, 1934) Miniature Dec. This dainty little dahlia is best described as a miniature Jersey's Beauty, it having the same lovely shade of pink with a slight suffusion of mauve towards the tips of the petals. Perfect decorative 2½ to 3 inches in diameter, with perfect stems, and are produced in great profusion on plants about 3 feet high. It is one of the very best keepers when cut, and we believe it is one of the best miniature for florists' use, ever introduced. A dandy little dahlia that will become as popular and be as extensively grown as the famous Jersey's Beauty.

Roots, each \$1.50. Plants, 75 cents each

TOOTSIE—(Wallace). Here is another miniature of beauty and promise for the future. In color it is a clear, soft pink, flowers three to 3½ inches in diameter, full centered decorative type. Plant a good grower and prolific bloomer. Good stems.

Roots, each \$1.50. Plants, each 75 cents

THE GLADIOLUS

The easiest to grow, the least expensive, the widest range of beautiful colors and color combinations of any of the summer flowering bulbs.

The late and much lamented Dr. Van Fleet, who was one of the pioneer Gladiolus breeders in this Country, predicted to the writer more than 30 years ago, that the time would soon come when the Gladiolus would be one of the most popular garden flowers in cultivation.

This prediction has in a great measure come true. At that time they were but little known to the great majority of our people, and comparatively few were grown in American gardens, requiring only a few hundred thousand to meet the demand. Today they are being grown by the millions, and there is room for many millions more, as thousands of Home Gardens are without this wonderful flower. This should not be as they can be had at so little cost, that any garden owner can afford to have them in abundance. If you have never grown the Gladiolus, do so this year by all means, and I venture to say you will be more than delighted with the glorious bloom they will give you.

I know of no other summer flowering bulbs, procurable at so low a cost, that are as attractive and useful for Home and Garden decoration as the Gladiolus. Their large perfect flowers are borne on tall graceful spikes, often having twenty or more buds, and if cut when the first flower opens, and placed in water, every bud will develop into a perfect flower, one or more opening each day, covering a period of twelve to fourteen days before the last flower is gone.

No garden these days is considered complete without its one or more plantings of these queenly, summer flowering bulbs. They are not exacting as to soil and culture. They will grow and bloom under conditions that would discourage most bulbous plants to quit, yet like everything else grown in the garden, they do best in a friable, fertile soil, supplemented with good clean culture, and will respond wonderfully to good nourishment and loving care.

Planting every ten or twelve days, in rows in the garden, or in groups in the border, (covering the bulbs four inches deep), from early April until latter part of June will give a succession of blooms from the middle of July to October. No other species of flowering bulbous plants will give you such great returns in flowers, and satisfaction for so little cost and care.

In the fall, when the foliage turns brown, they should be lifted, the tops cut off close to the bulb, and laid in a dry, airy place two or three weeks to dry and cure, when the old bottoms can be removed from the new bulb, and the bulbs be put into cloth bags or shallow boxes and stored in a dry, cool, but frostproof place for the winter.

Our bulbs are grown under the skillful care of experts who have had years of training in the production of high quality stock, and no better bulbs can be procured than we supply our customers. Every precaution is taken to keep them free from disease, and true to name, and we stand ready to replace any that should prove otherwise.

The Gladiolus (Continued)

Full and comprehensive cultural directions sent with each order. This leaflet tells you when and how to plant, how to care for the growing plants, when and how to cut the blooms, when and how to harvest or dig the bulbs in the fall, in fact everything necessary to guide you to entire success.

GLADIOLUS—KEMP’S ORIGINATIONS

PINK WONDER

	Each	Doz.
ALBALINE — Large pure white of splendid exhibition and commercial qualities. Strong vigorous grower, straight spike	No. 1—10c	.75
ALBANIA —A pure white, and beautifully fin-flower of great merit. Decidedly the best commercial white, it is also a good exhibition variety	No. 1—10c No. 2— 8c	.75 .60
AMORET —Shrimp pink, tips of petals shaded peach red. Lower or inferior petals overlaid with scarlet feathering on orange yellow ground. 4 ½ inches	No. 1—10c No. 2— 8c	.75 .60

PRIM BEAUTY GRANDIFLORUS —One of the most distinct varieties in existence. Color is La France pink ground, thickly mottled with fine lines and dots or orange rufous	No. 1—6c	45c	
PICK-UP MIXTURE —This fine mixture was offered in our 1925 catalog for the first time when a few thousand were distributed on order to our customers. Its high quality has made it so popular with our customers we are sold out every year long before the shipping season closes. Into this mixture are thrown all unidentified bulbs picked up in the field and from the floor of our bulb house and many small lots of good named varieties are added to it from time to time, worth many times the price you would pay for them if purchased under label. We believe this mixture to be the highest quality ever offered at anywhere near the low price we are charging for it. While the supply lasts, we will fill orders at the following low prices.			

Doz. 35c; 100, \$1.95, by express not prepaid

KEMP'S ORCHID FLOWERED JAPANESE IRIS

These beautiful Japanese Irises were originated from hand pollenized seed, several years ago, and have been pronounced by expert Iris growers to be the most beautiful collection of Japanese Iris in existence. Therefore, I feel confident we are offering a strain of Japanese Iris more beautiful and more desirable than any hitherto procurable.

With these wonderfully beautiful Irises, it is now possible to achieve a color effect quite equal to that produced with the German or Liberty Irises, and at a time of the year when there is a dearth of bright colors in the Garden, which makes them all the more desirable.

The Japanese Irises are very hardy, and free flowering and will grow in almost any situation, where the soil is naturally moist and somewhat acid, their natural habitat being along the margins of ponds and small streams.

We are offering twenty-two varieties here, embracing quite a wide range of color, and the prices at which they are offered have been approved by one of America's leading commercial Iris growers, and are for good strong divisions of two or more leads, with good roots.

TERMS:—Cash with order, to customers without an established credit. In all cases, when credit is desired by persons unknown to us, please give BANK reference.

NOTE:—The color descriptions of several varieties offered in this list, were arrived at by use of Ridgeway's color chart, and are nearly correct as it was possible for me to work them out.
J. A. Kemp

ATLANTA—(No. 11). Rosaline pink, with hue of soft lavender pink. Primrose yellow blotch at back of petals, from which radiates faint longitudinal veins of bluish purple. Pistils greenish white with bluish lips. A very dainty and extremely beautiful variety. 6 petals, size of flower 6 inches, height of stalk 45 inches.

Price, 50c each, \$5.00 per dozen

BOBBY SIPE—(No. 9). Large white overlaid with prominent feathering of bright bluish violet. The violet being heavier at base of petals, surrounding bright orange blotch. The beautiful color contrast of this variety is impossible of accurate description. It will have to be seen to be properly appreciated. 6 petals. Size of bloom 6 inches, height 48 inches.

Price, 50c each, \$5.00 per dozen

CELESTINE—(No. 15). Deep silvery pink hue veined blue. Orange blotch, surrounded with splashes and stripes of light purple. Standards or inferior petals deep silver pink veined deep blue. Pistils bremen blue. 3 petals, size of flower 7 inches, height of stalk 50 inches.

Price, 50c each, \$5.00 per dozen

CHARLOTTE—(No. 18). Violaceous blue on grayish background, in about equal proportions of color. Pistils grayish white, tipped clear violet blue, with broad feathering of Primuline yellow extending about $1\frac{1}{4}$ inches up the center of the petals. 6 petals, flower 7 inches in diameter. A very showy and beautiful variety that every one likes. Height 42 inches.

Price, 50c each, \$5.00 per dozen

COLLINGWOOD—(No. 10.) Lavender pink ground, heavily brushed Pieroma violet. The violet being much deeper on some of the flowers than on others, giving the appearance of two distinct variety colors from the same plant. The standards or inferior petals are upright and long and prominent. The color being petunia violet, lightly edged lavender pink. Pistils, lilac tipped petunia violet. One of the most beautiful color combinations to be seen in the Japanese Iris. 3 petals, size of bloom 7 inches, height 32 inches.

Price, 50c each, \$5.00 per dozen

CONSTANCE—(No. 19.) Cerulean blue feathering, overlapping pale forget-me-not background, with orange buff markings at base of petals. Standards medium size, splashed purple on light King's Blue background. Pistils, greenish white, tipped bluish purple. Flower medium to large. 3 petals. Very fine and a prime favorite with those who are fond of parti-colored flowers. Midseason. Height 32 inches.

Price 50c each, \$5.00 per dozen

CORNELIA—(No. 13). White, prominently veined purplish blue, with cadmium orange blotch at base of petals, edged dull purple. Standards or inferior petals. 3 inches long, 1 inch wide, paris blue, lower half. Upper half white, heavily veined paris blue. Pistils, white tinted lavender, with lighter tinted lips. An extremely fine variety that should find much favor with all Irish lovers. 3 petals, size of flower 7 inches, height of stalk 50 inches.

Price 50c each, \$5.00 per dozen

Kemp's Orchid Flowered Japanese Iris (Continued)

DAY DREAM—(No. 1). In this variety we have an unusually beautiful and attractive flower. The color is a soft pinkish lilac, lightly veined pale violet blue with heavier shading of the same color surrounding cadmium yellow blotch at base of petals. Short inferior petals of pale violet blue, and pale pink pistils, tipped bright blue. 3 petals, diameter 6-7 inches. Height of flower stalk 30 inches. Stock very limited.

Price, 50c each, \$5.00 per dozen

GRENADIER—(No. 16). White, overlaid with bright lavender sheen. The lavender being more prominent at base of petals, surrounding cadmium orange blotch. The standards or inferior petals are medium long, upright and are of a pleasing hue of lavender edged blue. Pistils clear white. A wonderfully beautiful variety. 3 pistils, size of bloom 7-8 inches. Height of stalk 50 inches.

Price, 50c each, \$5.00 per dozen

HARMONY—(No. 3). A finely ruffled variety of great beauty, and distinct from any other Japan Iris I have ever seen. The flowers are single and of medium size, with the exquisite color of oxide blue veined and edged lilac pink. Prominent orange blotch at base of petals. Inferior petals bright berlin blue. Pistils pale lilac pink. Size of flower $4\frac{3}{4}$ inches, height 42 inches.

Price, \$1.00 each, \$10.00 per dozen

LAWRENCE—(No. 5). Hortense blue, lightening to Ontario violet, as the flower becomes fully blown. Standards are large, prominent, and of a solid, deep full bluish violet. Pistils greenish white, tipped light bluish violet. Rich Primuline yellow blotch extending from base to one-third way up petals in feather like formation. Flowers 8 inches in diameter, with broad rounding petals. A very striking and altogether beautiful variety. Height 42 inches.

Price, 50c each, \$5.00 per dozen

MARTHA KEMP—(No. 8). Deep lilac pink ground, brushed venetian blue. Standards or inferior petals are medium long, stand upright, and are almost solid, deep bluish violet. Orange blotch at base of petals. Pistils greenish white tipped bluish violet. A very conspicuous and beautiful variety. Single. Size of flower 7 inches, height 48 inches.

Price, 50c each, \$5.00 per dozen

MARVELLA—(No. 20). Phlox purple, splashed phlox pink. Orange buff blotch at base of petals. Pistils greenish white, tipped lavender pink. Flower large to very large, with three broad, rounded petals. Height 32 inches. Midseason. A marvelously beautiful variety.

Price, 50c each, \$5.00 per dozen

NORMANDY—(No. 7). White, with faint hair lines or veins, radiating from light cadmium yellow blotch at base of petals. Standards or inferior petals are very conspicuous in their contrast of bluish violet color, tipped and edged white. Single. Size of flower 6-7 inches, height 46 inches.

Price, 50c each, \$5.00 per dozen

OCEANA—(No. 12). Deep violet blue, with bright cadmium yellow blotch at base of petals. Pistils striped lavender and purple, lips dull violet. Very handsome and showy. 6 petals beautifully ruffled and fluted. Size of flower 6 inches, height of stalk 55 inches.

Price, 50c each, \$5.00 per dozen

RICHMOND—(No. 23) 1933. The ground color of this marvelously beautiful variety is difficult to define, as it does not exactly match any of the color plates in Ridgeway's Color Chart. Its rich lustrous color closely approaches Royal Purple, and Dark Violet coming about half way between these two colors. Some of the flowers are lightly mottled and splashed with light pink, prominent orange color at base of petals. Richmond is by far the richest colored Japanese Iris I have ever seen. Now being offered for the first time.

Price, \$1.50 each, \$15.00 per dozen

ROMANCE—(No. 2). Cerulian blue, heavily marbled pinkish lilac. Prominent blotch of deep cadmium yellow at base of petals. Short or inferior upright petals of same color and marbling. Single. Size of flower 8 inches, height of flower stalk 40 inches. A very showy variety that will find favor with all lovers of the Iris who are fond of the odd and unusual color combinations.

Price, 50c each, \$5.00 per dozen

SELKIRK—(No. 22). Pure white, with gold band in center of lower half of petals. Flowers large, and beautifully ruffled. Similar to Gold Bound, but pronounced by experts as being better. 6 petals, height of stalk 42 inches.

Price, 50c each, \$5.00 per dozen

TALMANYA—(No. 4). Pale kings blue, irregularly splashed and marbled venetian blue. Bright orange blotch at base of petals. Standards of same pleasing color as falls. Pistils greenish white, tipped pale kings and venetian blue. A splendid variety of great merit. Flowers $7\frac{1}{2}$ inches in diameter, finely ruffled. Height 40 inches.

Price, 50c each, \$5.00 per dozen

Kemp's Orchid Flowered Japanese Iris (Continued)

VENICE—(No. 17). Lavender pink, heavily veined venetian blue, with deep chrome yellow blotch at base of petals. Pistils lavender tipped venetian blue. 6 petals, size of flower 6 inches, height of stalk 50 inches. It is impossible to adequately describe the great beauty of this exquisite variety. You will have to see it to fully appreciate its beauty.

Price, 50c each, \$5.00 per dozen

VERNON—(No. 21). Bright lavender blue on rosaline pink ground. Narrow and of orange rufous on center of lower third of petals. Standards or inferior petals oxide blue, mottled lavender pink. Pistils creamy white, tipped lavender blue. 3 petals. Size of flower 7-8 inches, height of stalk, 30 inches.

Price, 50c each, \$5.00 per dozen

VAN HOESEN—(No. 6). Dull bluish violet, veined lilac pink. Light orange colored blotch at base of petals. Standards or inferior petals lilac pink tipped bluish violet. Pistils dull greenish white, edged bluish violet, with deeper margin of bluish violet at terminal. A very beautiful variety. Single. Diameter of flower 6 inches, height 48 inches.

Price, 50 cents each, \$5.00 per dozen

SPECIAL OFFER—1 each of the 22 varieties \$10.00, 3 of each \$25.00, not prepaid

JAPANESE IRIS SEED from KEMP'S ORCHID FLOWERED STRAIN

That many new and beautiful varieties will result from the planting of this strain of seed, there can be no question or doubt. Iris are easily grown from seed, and any one with greenhouse facilities, or a sunny window in the house can succeed with them.

Price per packet of 100 seeds	\$.25

Full cultural directions printed on each packet.

NEW STRAWBERRY "Dorsett"

This is the first of several improved strawberries originated by the U. S. Dept. Agriculture, which have taken the strawberry world by storm. It is not only the most fruitful, but each individual fruit is an attractive gem, and delicious to the taste, whether eaten raw or in pastry and jams. The plants are vigorous growers, immensely productive of large, light scarlet berries of unsurpassed quality. We feel we are rendering a distinct service to our friends and customers by calling this fine berry to the attention of those who grow strawberries for home use or for market.

We have a limited supply of good strong layer plants to offer for spring delivery. Quotations for larger quantities on request.

Price per 50, \$1.00; per 100, \$1.50, Postpaid

DOUBLE FLOWERED HOLLYHOCK PLANTS

CHATERS DOUBLE—In mixed colors, as follows: Maroon, pink, red, salmon, yellow and white.

DOUBLE EVER BLOOMING—This strain is of especial value as they give successive crops of bloom throughout the season. They come in the same colors as Chaters Double.

Strong field grown plants, either strain \$1.00 dozen, Postpaid

DAHLIA SEED

Dahlias from seed will bloom in 10 or 12 weeks after sowing. The seeds we offer are home grown, and are from many of the very best double varieties listed in this catalog, some from carefully hand pollenized flowers. They are the surplus, over and above our own requirements, and of the same quality we shall plant. No better seed can be procured anywhere, nor at any price, (no matter how much you pay), that will give more double flowers. The past season, out of 300 plants we selected 75 promising double varieties for further trial; an unusual high percentage, that may not be duplicated soon again. Growing dahlias from seed is purely a gamble and we cannot guarantee the results. All who plant dahlia seed, simply take a chance, hoping they will get one or more that will be outstanding. Supply is limited, and while it lasts, orders will be filled at the popular price of \$5.00 per 100, \$9.00 for 200.

MINIATURE DAHLIA SEED—This was saved mostly from the two varieties we list in this catalog, and we have every confidence that some fine varieties will be gotten from it. The seeds are well developed and fully ripened and should give a very large percentage of germination.

Packet of approximately 100 seeds \$1.00, 3 packets for \$2.50

KEMP'S GIANT ZINNIAS

Full cultural directions on each packet.

The Giant Zinnias are the largest flowered and most gorgeous of all the garden annuals, with a wonderful range of color.

The giant blooms are extremely double, with long stems, and good keeping qualities. This old-fashioned flower is a joy in the garden, and extremely satisfactory for house decoration. If you have room for but one annual, plant the Zinnia. No other annual will give so much in return for so little attention.

It loves a hot, dry Summer and grows with almost no care, although better results are obtained with some loving care. It has no insect or fungous enemies.

DAHLIA-FLOWERED—3-4 feet. The flowers often measure 6 to 8 inches in diameter and 4 inches deep. Mixed in the following colors—primrose yellow, creamy yellow, rich crimson, lavender, light rose, rich orange yellow, light rose with center deep rose, golden yellow on brown, old rose, orange and gold, pure white, deep purple and flame scarlet.

Pkt. 15c, 4 pkts. for 50c, 9 pkts. for \$1.00

MARIGOLDS

GUINEA GOLD—A valuable novelty that has created a sensation as a most desirable cut flower. It is of distinct type, producing no singles whatever, the flowers coming 100% double and semi-double. The color is a clear orange, flushed with gold; very loose formation, flowers large, and lack the intense odor of the regular African Marigold.

Per packet 25 cents

LEMON QUEEN—These are lemon color, but the formation of the flower is exactly like the Orange Queen. Cultural directions on each packet.

Pkt. 10c, 3 pkts. for 25c

ORANGE QUEEN—Large, perfect, double quilled flowers of a rich deep, golden orange color. Very attractive.

Pkt. 10c, 3 pkts. for 25c

SINGLE FRENCH—This dainty little flower is of inestimable value for cutting and table decoration. The colors are dark brown with golden edges, and the blooms hold well when cut. You simply cannot find a prettier little flower than this dainty Marigold. Very profuse bloomer.

Packet 10 cents, 3 for 25 cents

In late Summer, when many annuals are past their best, the Marigolds afford a wealth of color that is simply invaluable. The large flowered African varieties produce enormous, self colored flowers on tall plants and are indispensable for porch decoration and exhibition. One of the longest keepers of all annuals.

KEMP'S ORCHID FLOWERED JAPANESE IRIS
